10 WAYS TO CREATE THE PERFECT OUTDOOR ESCAPE

In the heat of the moment, you want to make an impression. Your outdoor space is no exception. It should be clean, inviting, and make your guests want to stay for a while. Whether you're looking to make quick upgrades to dining areas, or increase comfort, we have everything you need to design the ideal outdoor escape.

- 1** Decide where improvements and upgrades can be made.
- 2** Understand the common temperature of the area.
- 3** Consider placing canopies around existing outdoor furniture (page 99).
- 4** Install cooling fans in areas where large crowds congregate (page 69).
- 5** Ensure all water fountains and hydration stations are working (page 149).
- 6** Purchase new trash cans, in one color, for a quick upgrade to your space (page 80).
- 7** Place barriers and safety guards where crowd control can become an issue (page 136-137).
- 8** Provide additional seating and picnic tables that can stand up to the weather (page 117-118).
- 9** Place bicycle racks and metal equipment in the shade (page 102).
- 10** Invest in furniture covers to protect chairs and dining areas overnight.

Surrounding your commercial office, hotel, or business with the right outdoor equipment, seating, and amenities is essential to your success—and that's where we come in.
